Uses of the Medicines dispensed in Primary Care dataset

The data were obtained from here, from this landing page. This contains all DSA (data sharing agreements) active from January 2020 to November 2021.

Last release of data

The most recent date for any release of data is Oct 2021.

Number of applications

There are 50 unique applications requesting access to this dataset (note that different versions of these applications are counted as one application).

Organisations and projects

The 50 unique applications map to multiple organisations as individual applications may have cover multiple DSAs (for different time periods), the leading applicant organisation for that application may change over time etc.

There are 45 organisations who are listed as the lead applicants for these applications. The number of different projects (as measured by unique project titles) for each organisation is provided below:
